The capture of Emilio Aguinaldo, the Filipino insurgent leader, has thrown our

Manila contemporaries into paroxysms of jubilation and heavy-type headlines. As the Manila Times says, the story of his ditional licenses for jurickshas in Victoria. | tant points. capture reads like a romance in a boy's book of adventure, and Brigadier-General Frederick Funston and the officers who assisted him in effecting the coup certainly next. deserve the highest praise. On 8th Febru-Aguinaldo's despatches, General Funston concrived the idea of trapping the head and

front of the robellion. His plans were approved by General Wheaton and Governor-General MacArthur. With seventyeight Macabebe scouts, and accompanied by their officers (Capt. Hazzard and Lieut. Hazzard), Lieut, Mitchell, A.D.C., and Capt. H. N. Newton, 34th U.S. Infantry, General Funsion set out on 6th March by sea, and landed near Baler, on the east coast of Luzon, on 14th March. The American officers were dressed as private soldiers, and, characteristically enough. each carried a towel, a toothbroah and a half blanket. They were passed off as prisoners." Twenty of the Macabelies were dressed in insurgent uniforms, the remain-

ler as ordinary hombres. Nominally, the party, which represented itself as proceeding to reinforce Againaldo, was placed under the command of ex-insurgent officers, and marched for eight trying days across country to Aguinaldo's headquarters. Aguinaldo, they should now remember, has never been guilty of excesses towards the Americans like some of his officers, and even though he was in the wrong at the outset he had a certain excuse for dissatisfaction with the high-handed conduct of the American representatives who ruled from the Palace at Malacanan after the capture of Manila. A Postal Tip from India.

The following paragraph has lately been going the round of the Indian It has been decided, as an experimental measure, to supply the Presidency Post Offices at Calcutta, Bombay, and Madras, the Rangoon Post Office, and the Simla Post Office, during the season, with a small stock of British penny postage stamps for sale to the public. It is believed that certain classes of the European community will find it a convenience to be able to purchase British postage stamps from post offices in this country for the purpose of prepaying replies from the United Kingdom, and these stamps will also be found aseful by the purchasers of British Postal orders for the purpose of making up broken accounts. The rule as to this is that British postage stamps up to the value of five penny) may be affixed to a British Postal Order to make up a broken sum For example, the sum of 7s. 11d. may be remitted in this way by affixing five penny postage stamps to a British Postal order or 7s. 6d. These penny postage stamps will be sold for one anna each; and should the results of the experiment show that there is a real demand for them in this country, measures will be taken to procure

The abundant rain-fall of the past 2 hours has come as 'a boon and a blessing' to the water authorities of Hongkong, and more particularly to the residents of the less-favoured districts. On Sunday evening, fire broke out in ratesn shop at No. 122, Second Street. The highly, inflamable nature of the material caused the flames to spread in an larming manner. The Central Fire Brigade turned out, but before the flames were extinguished, the first and second floors were gutted. The damage lias not yet been estimated, and the cause of the outbreak is still a mystery.

The late Consul-General Wildman.

An American nowspaper account of the disaster to the City of Rio de Janeiro says that the fate of Consul-General Rounseville Wildman, his wife and their two children, makes a sad story. A boat had been launched and lay alongside. A ladder was rigged and Mrs Wildman stood by the gangway. Pilot Jordan begged of her to get in the boat. She stood irresolute for an instant, and asked for her children. They'll be all right, shouted Jordan. He had one of them in his charge, and Mr Wildman had the other in his arms. At that moment the vossel plunged and listed violently. All those who were standing by the side were thrown headlong into the water. The best was swamped, and Mc and Mrs Wildman and the two children were not seen again.

A Fishing Yarr.

An extraordinary fishing story has recently appeared in this country as the product of a Canadian editor. Some men were engaged in catching sturgeon in the Ottawn River, when they were agreeably surprised by feeling a heavy fish struggling at the end of their line After great difficulty they succeeded in hauling him in, and as they got him near the surface of the water a clear sound of finkling sleigh bells struck their ears. At last the fish appeared, wearing upon his body a complete set of eleigh harness, and that, too, fixed as accurately about him as it placed there by the careful hands. of some marine groom. The explanation of the phenomenon is, so we are told, simple enough. Some ten years ago a horse and slown fell into the river when chated with and thus became transfixed by the harness. If anyone can best this yarn he is at liberty

STATEMENT This company was organized for the pur pose of constructing and operating a Bre-

wery in the city of Manila, Philippine Islands, and engaging in a general brewing business in the Philippine Islands. The Company has been duly incorporated, registered as required by law, and icence authorizing the company to engage in the above business has been duly issued

by the proper authorities. The liability of each stockholder for the debts of the Company is limited to the amount of stock for which he subscribes. The profits which have accrued from the sale of beer in these Islands since American occupation have been enormous, notwith-

standing the fact that in no sense has the field been explored. During the six months ending Novem-

ber 30th, 1900, 69,657 barrels of bottled heer were imported into the Islands, which is approximately 140,000 bbls. per annum. Beer brewed in America for these Islands must be specially prepared to make it 'keep for exportation. The same beer brewed in Manila would

734 be free from this special preparation, as well as the deterioration incident to a long ocean voyage, and, of necessity, would be correspondingly superior to the imported article, in view of which it is confidently expected by the gentlemen interested in the promotion of this enterprise that the markets for beer in the Philippine Islands will pass absolutely into the control of this corporation shortly after it has placed its first brew on the market, because it will be of the best possible quality and rigorously

held to that standard. It is reasonably expected that the future A eases affecting those advancing in life demand will much exceed the past or occur to those having some deficiency in present, if for no other reason than that the construction of the eyes—the many beer of a quality much superior to the im- bids. years of 'Eye Strain' ending in serious ported will be obtainable at greatly reduced forms of disease. The company is the owner of a valuable Mr. LAZARUS supplies his SPECTA- tract of land in the Tondo District of Manila, of easy access to the railway 2473 station and water transportation. It is proposed to construct (without delay) suitable buildings on this ground and to install the necessary plant with modern

machinery and equipment sufficient for the manufacture of 60,000 barrels of beer of 40 Of the ten thousand shares of Capital

The remaining 3,000 shares are in full payment for the real estate above mentioned and for the franchise license, labor and expense of incorporation, sale of stock,

Applications for shares should be made on the accompanying blank forms and for-mount of the deposit. The subscription list will be open on March 1st, 1901, and will close for the Philippine Islands on March 31st, 1901, and the date for closing for all other parts than the Philippine Islands will be May 31st,

How Sir George White saved

Ladysmith. Our Army correspondent in his letter dated London, February 15, referred to certain ruinours current in military circles regarding Sir Redvers Buller and weakness' when engaged in the relief of Ladysmith. He was said to have sent a heliographic message to Sir George White advising action on his part which would have placed Ladysmith in the hands of the Boors. One version of the message was that White was to kill his horses and cut his way out; snother was that he should make the best terms possible with the enemy. No mention whatever is made of this remarkable message either in the despatches of Sir George White

or in those of Lord Roberts, though the latter, in his despatch of February 16th, notes that Buller had, both on February 6 and February 9, asked whether the doubtful chance of relieving Ladysmith was worth the risk it would involve. We have reason to believe, however, that a cypher incasage was sent to Ladysmith after the Spion Kon reverse, and its tenour was to advise White to destroy his guns and apare ammunition, and cut his way out This being the case, some record of the holiogram must be in existence, and the wonder is that it has not been published 1-ng ago, considering the number of persons who somer or later must have heard of it. When the public learn the truth they will be prepared to give more credit to White for his degged resolution in holding on, spito of heavy losses and appalling sickness among his troops. It was fortunate indeed that peither the Field Marshal nor the General Officer Commanding at Ladysmith manding the relieving force. - Pioneer.
